Announcements

Support for the Geospatial feature will end on January 31, 2023

At that point:

- Users will be unable to query /\$DATABASE/\_design/\$DDOCS/\_geo endpoints. Requests to those endpoints will return a 404 Not Found response.

- Users will be able to define st\_indexes in design documents but they will be ignored by the service. This ensures that existing design documents can be updated and replications containing geospatial indexes will not fail.

- Existing geo indexes will be deleted, and customers will no longer be billed for the
